■ RESEARCH INTERESTS

Question — how the brain turns experience into emotion, memory, and choice, and where that process goes wrong, as in anxiety, depression, and dementia.

Approach — behavior first (reaction-time and eye-tracking experiments), then neuroimaging, then computational models. My interests are still broad at the undergraduate level; I plan to narrow them through graduate training.

Currently reading: anxiety & amygdala · hippocampus & episodic memory · decision-making (economics) · computational models of behavior · neuroimaging (such as EEG and fMRI) · machine learning (such as multimodal models)

Long-term: clinical diseases (such as dementia) · biomedical engineering · neuroeconomics

■ EDUCATION

Chung-Ang University, Seoul, Korea

2021 – 2027

B.A. in Psychology (Minor in Economics), expected Summer 2027

■ RESEARCH EXPERIENCE

Undergraduate Research Lead — Poster Team

2023.02 – 2023.08

Academic club Sasaek, Department of Psychology, Chung-Ang University · Faculty advisor: Soohyun Cho

– Designed and ran a divided-visual-field reaction-time experiment: 180°-rotated face (KDEF, happy/afraid) and word stimuli shown for 200 ms to the left or right visual field; 51 right-handed participants screened with the Van Strien (2016) inventory; fixation verified with a GP3 eye-tracker (272 + 84 trials).

■ CONFERENCE PRESENTATIONS

Choi, J.†, Han, S., Hong, J., Ra, S., Bae, S., Lee, E., & Cho, S.* (2023). The Effect of Stimulus Type on Visual Field Advantages. Poster presented at the *77th Annual Conference of the Korean Psychological Association* ("AI 시대, 다시 생각하는 Human Mind"), Suwon, Korea.

† First author & presenting author · * Corresponding author

■ AWARDS AND HONORS

Undergraduate Poster Excellence Award

2023.08

Korean Psychological Association, 77th Annual Conference (as first author)

Best Team Award

2022.12

1st Annual Competition in Sasaek, "Psychology in the Digital Age", CAU Psychology

■ ACADEMIC ACTIVITIES

Brain and Cognitive Science Community (BCSC), 5th cohort

2023.12 – 2024.02

Paper review and group discussion on brain and cognition

Organizer — "Cognitive Neuroscience Research Preview Course"

2023.09 – 2023.12

Academic club Sasaek, Chung-Ang University · planned the weekly curriculum and presentation schedule

Korea Students' Society for Psychology, 3.5th cohort

2022.12 – 2023.02

Cognitive Neuroscience track; peer-learning study group

■ ACADEMIC LEADERSHIP

President — academic club Sasaek, Department of Psychology 2026.07 – 2026.12 (current)
Chung-Ang University
– Runs the semester program: reverse-engineering published studies into research proposals, a student colloquium, the 5th annual Sasaek conference, and an open lab seminar.

Vice President — academic club Sasaek 2023
Department of Psychology, Chung-Ang University

■ CONFERENCES ATTENDED

Korea BCI Society, Fall Conference (Sungkyunkwan University)	2026.10
World Brain Awareness Week, Seoul National University	2026.03
Korean Society for Cognitive Science, Annual Conference	2024
77th Annual Conference of the Korean Psychological Association (presenter)	2023.08
Korean Society for Cognitive Science, Annual Conference	2023
Korean Society for Cognitive & Biological Psychology, Annual Conference (Yonsei University)	2023.02

■ SKILLS

Programming & Analysis: Python, MATLAB, SPSS

Experimental: Eye-tracking (Gazepoint GP3)

Languages: Korean (native), English

■ OTHER ACTIVITIES

Head of Psychology Dept. Planning Team, Freshman Orientation 2024
College of Social Sciences, Chung-Ang University

Vice President — band club SPSS 2023
Department of Psychology, Chung-Ang University

Head of PR Division — Psychology Student Council BE:HIND 2022
Department of Psychology, Chung-Ang University

■ MILITARY SERVICE

Republic of Korea Air Force — Sergeant, honorable discharge 2024.07 – 2026.03
21 months of service

Relevant Coursework — Major: Foundations of Cognitive Neuroscience (A) · Perceptual Psychology (A+) · Biological Psychology (A+) · Clinical Psychology (B+) · Experimental Psychology (B+) · Psychological Statistics (A+); **Minor (Economics), in progress 2026-2:** Behavioral Economics · Econometrics · Dynamic Economic Theory; **General:** Computational Thinking & AI Literacy (A+)

Updated October 2026
